MARYSVILLE DIVERSITY ADVISORY COMMITTEE

Our Vision

Our vision is that the City of Marysville will be a welcoming and inclusive community that recognizes and honors diversity and is free from prejudice, harassment, bigotry and hate. The City will put into action positive changes in its workforce and communities to achieve equality of opportunities for all residents, and create a harmonious environment.

Who We Are

We are a group of citizens who live in Marysville just like you, from different walks of life, cultures and abilities.

What We Do

Mayor Jon Nehring gathered us together to help Marysville be a comfortable and safe place for everyone to live. Recognizing diversity is important. It makes Marysville a better community by understanding different cultures, religions and disabilities, and valuing what each person has to offer.

Our goal is to make sure that you and your family are respected and represented in the schools.

We certainly want City government to be respectful of you. That includes the Police Department, Fire District, Municipal Court and all departments.

If you work in Marysville, your employer should respect you, your culture and abilities.

Local businesses play an important role in making Marysville a welcoming and inclusive community.

We strive to make all of this happen, for you, for us.

Our Work Plan

Leaders from various ethnic populations, advocates for people with physical or mental differences, government and public school entities, the business community, churches and local organizations worked collaboratively to develop and implement an initial work plan to outline diversity goals and expectations for the years 2012-2013.

The work plan serves as a set of priorities, recommendations and goals for increasing diversity in our community and keeping the dialogue going regarding diversity and inclusiveness issues, with suggested actions to meet these goals.

The work plan guides diversity and inclusiveness efforts in Marysville during that two-year period. Baseline options will be developed to monitor and measure results on suggested actions.

Categories of focus as recommended by the Committee are:

- **Education**
- **Government**
- **Business/Workforce**
- **Outreach & Engagement**
- **Arts and Culture**
- **Partnerships with Community Stakeholders**
- **Law and Justice**
- **Children and Families**

A work plan, however, is only as successful as the stakeholder partners and individual ready and willing to put its ideas into use. That's where you play an important role.
